

Davenport's Bachelor of Business Administration (BBA) degree in Management with an Uncrewed Aerial Systems Specialty is designed to maximize your career potential. This program builds on your knowledge by teaching the leadership and change management skills that today's employers want. You'll learn managerial skills that influence organizations and support business growth, risk management and effective decision-making. The program also integrates data analytics, project management, quality management and business strategy skills. Davenport University was founded in 1866, and the Donald W. Maine College of Business continues to produce outstanding business leaders. Set yourself apart with this outstanding degree!

The BBA in Management with an Uncrewed Aerial Systems Specialty can be completed in-seat or online.
